

**ANTENNA DROP LOCATION – COMMUNITY CENTER**  
**201 S. Rengstorff Ave.**  
Thomas Guide: 811 G4  
As of 24 November 2019

**WHERE TO ENTER:**

The antenna drop is located in a storage room at the end of a large room called Redwood Hall. You can park in the large lot at the front of the building. Photo CC-1 shows the entrance to the Community Center. As you enter the building through the main doors, you will see a reception desk to your right. Let them know that you need to go to the storage room at the end of Redwood Hall (Storage 149) to access the antenna cable drop.

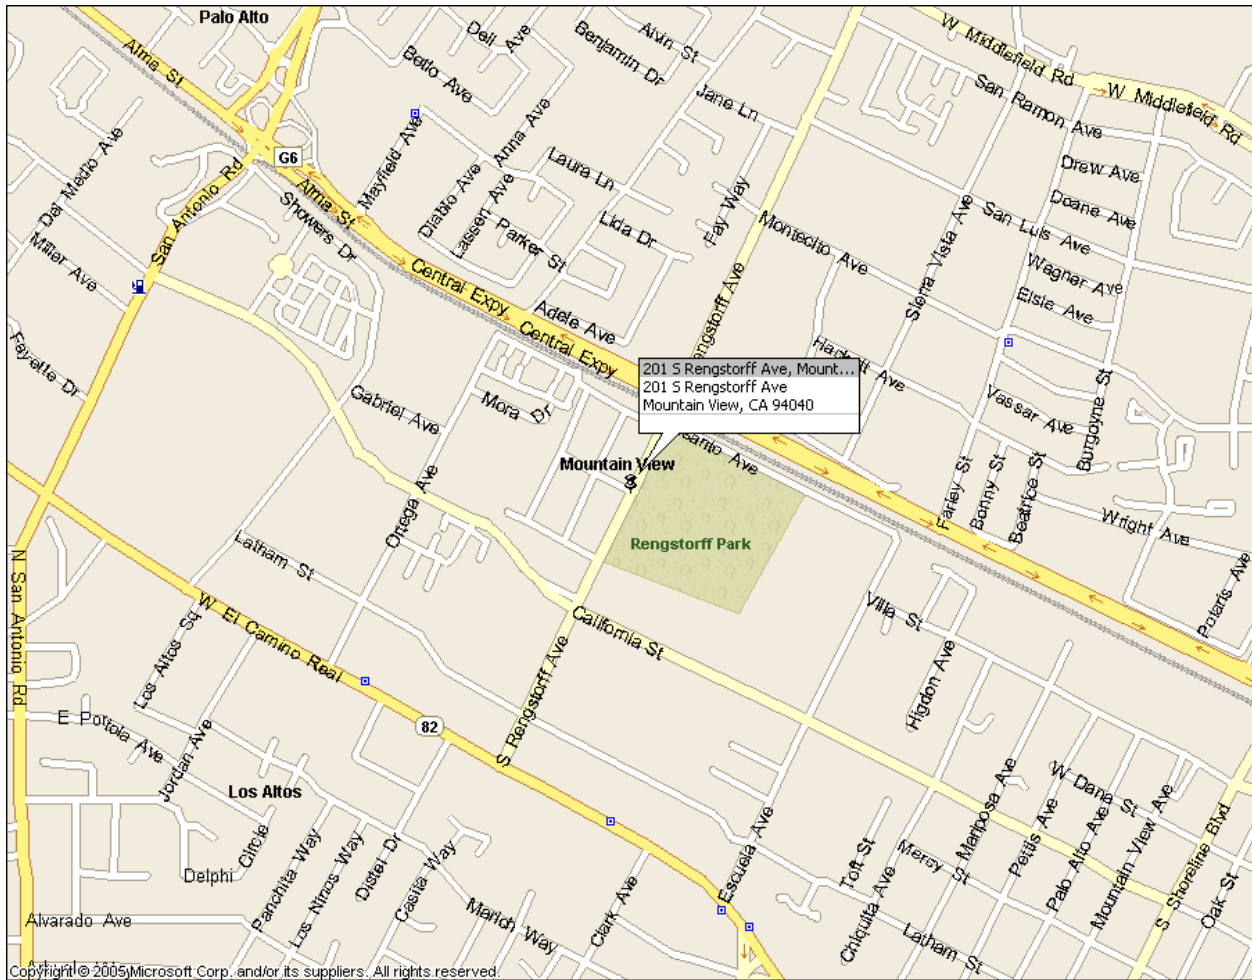

**LOCATON OF THE CABLE DROP**

Walk down the hallway as shown in CC-2 and turn right into Redwood Hall. Go to the double doors at the end of the hall as shown in CC-3. As you enter the storage room look to your left. You'll see the antenna cable hanging from a plate on the wall, as shown in CC-4. CC-5 is a close-up of the cable and CC-6 shows the end to connect to. It's an SO-239 connector (UHF female).

**WHERE TO SET UP YOUR RADIO**

It is suggested that you have your own table and chair in your car in case you cannot find one to use in the storage room. You should also be prepared to have your own light and battery power.
