Repeat as above.

Last call--All stations with suffixes A through Z, Alfa through Zulu, please check in now.

Record calls, and/or note calls/names on Mountain View checklist.

Total all check-ins, including those from the main net, and those at the station.

This concludes Mountain View check-ins. We had a total of <number> check-ins this evening.

While I go back to the main net to report our check-ins I will turn the net over to our EC. <your call>

While EC has the net, switch back to 145.270 (-). Wait for a pause in main net traffic.

Net Control, this is Mountain View.

When acknowledged by Net Control, state

Mountain View had a total of <number> check-ins this evening. This is <your call>.

Wait on Main Net until total is announced, note total and then return to 146.535. If local net is still in session, call a break and, when recognized, make the following announcement:

The main net had a total of <number> check-ins tonight.

Is there any other business for the local net? <pause...>

Thank you for making your time and equipment available to the net. This is <your call>, returning the frequency to general use.
